These unbreakable anti-ligature mirrors were designed in conjunction with prison architects and correctional facilities from several countries. These unbreakable observation mirrors or prison cell security mirrors, improve officer and staff safety as well as inmate safety. These institution mirrors are easily installed by prison contractors and being an unbreakable anti-ligature mirror, have a long service life.

Acril Convex reserves the right to change any specification or product, without notice, as it continues to advance convex mirror technology. User shall determine the suitability of the product for their intended use and assume all risk and liability in connection therewith. All orders accepted in accordance with terms of trade.
